Stephen

I will send the FSP addendum in the next email

Thanks

Brian:

We had updated the MW numbers in the FSP Addendum to reflect the planned additional wells. Unfortunately, we attached incorrect figures to the submitted FSP Addendum. We caught this error early and I thought that I had sent out the correct figures. Apparently, I did not. Attached are the correct figures for the FSP Addendum. The only changes are the numbers on the MWs in AOC 2, 3 and 4.

Thank you,

Bob Owens

Bob

I was looking at the maps in the FSP yesterday and noticed that MW 11 is used for well in AOC 1 and AOC 2 and MW 12 is used for a well in AOC 1 and AOC 3. Also there is no MW 15 and MW 16. I believe that MW15 and MW 16 are 2 of the wells in AOC3 that were completed. I know that we are going to review the data before selecting a location for the MW in AOC3 and I would prefer to wait until that decision has been made before updating the maps. Can you please look at the maps and tell me what the correct wells numbers will be?

Thanks
